

## Local Dimensions National Connections

*Third Sector Interface and National Intermediaries Conference 2010  
5th and 6th October, Grand Central Hotel, Glasgow*

### **Planned Open Space Sessions - 6<sup>th</sup> October**

#### *Getting it right for every child: what role for local interfaces?*

Getting it right for every child (GIRFEC) is the Scottish Government's long-term, national approach to improving outcomes for children and young people and to delivering social policies like the Early Years Framework, Equally Well and Achieving Our Potential. In some areas local interfaces already actively support their voluntary children's services sector to be strategic partners with the public sector in the implementation of GIRFEC. This session will provide an update on progress in implementation around Scotland, highlight resources and support available, and encourage local interfaces to share and showcase their own involvement in supporting the voluntary children's sector.

#### *Facilitated by:*

Claire Stevens

Third Sector Liaison, Children, Young People and Social Care directorate  
The Scottish Government

#### *Avoiding Employment Problems...*

Managing people throws up challenges which tests the capability and patience of all successful organisations. A major challenge is resolving conduct problems to the satisfaction of management and staff, without legal risk to the organisation. The law influences the way the matter is managed - but shouldn't paralyse management from taking the necessary action.

Law At Work's interactive workshop will address the investigation and resolution of an alleged misconduct issue - giving delegates a chance to discuss and influence the progress of the disciplinary process - while learning about the risks that lie in wait and how to reduce them.

#### *Facilitated by:*

[Law at work](#) during morning open space session (10.30 – 12.00)

*More details to follow on other sessions..*
