Planned Open Space Sessions - 5th October

What's new in Employment Law and what it means for you...

Keeping abreast of endless changes to employment law is time consuming and stressful for employers. In addition to alerting you to the latest developments in legislation and case law, this 90-minute seminar will cover practical steps that managers can take to ensure they stay on the right side of the law.

Supporting Voluntary Action in North Lanarkshire – Learning from Our Experience

This session aims to share the experience of a recently completed two-year Supporting Voluntary Action pathfinder project in North Lanarkshire with partners across the country.

It will include a focus on best practice for engaging the voluntary sector to key strategic tables such as local Community Planning Partnerships, and what outcomes were obtained from the project that could be useful to partner organisations planning a similar delivery.

The session plans to be interactive, and include discussion and question / answer session.

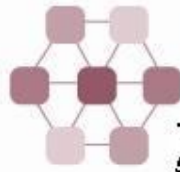

Facilitated by:

Craig Russell (Voluntary Action North Lanarkshire)

Enabling a Capable, Sustainable and Enterprising Third Sector: Procurement

This session will consider current and future interventions required to enable third sector providers:-

- to become more sustainable through trading activity, i.e; winning more public sector contracts, building cross sector relations, forming part of the supply chain;
- have a role (as stakeholders) in shaping the outcomes for public sector contracts and in their evaluation;
- to be in a position to respond to new and emerging markets, in particular increased application of community benefit clauses, and;
- build local capacity around skills, leadership and governance
